Review of Local Government Ethical Standards: Stakeholder Consultation

The Committee on Standards in Public Life is undertaking a review of local government ethical standards.

Robust standards arrangements are needed to safeguard local democracy, maintain high standards of conduct, and to protect ethical practice in local government.

As part of this review, the Committee is holding a public stakeholder consultation. The consultation is open from 12:00 on Monday 29 January 2018 and closes at 17:00 on Friday 18 May 2018.

Terms of reference

The terms of reference for the review are to:

1. Examine the structures, processes and practices in local government in England for:
 - a. Maintaining codes of conduct for local councillors;
 - b. Investigating alleged breaches fairly and with due process;
 - c. Enforcing codes and imposing sanctions for misconduct;
 - d. Declaring interests and managing conflicts of interest; and
 - e. Whistleblowing.
2. Assess whether the existing structures, processes and practices are conducive to high standards of conduct in local government;
3. Make any recommendations for how they can be improved; and
4. Note any evidence of intimidation of councillors, and make recommendations for any measures that could be put in place to prevent and address such intimidation.

The review will consider all levels of local government in England, including town and parish councils, principal authorities, combined authorities (including Metro Mayors) and the Greater London Authority (including the Mayor of London).

Local government ethical standards are a devolved issue. The Committee's remit does not enable it to consider ethical standards issues in devolved nations in the UK except with the agreement of the relevant devolved administrations. However, we welcome any evidence relating to local government ethical standards in the devolved nations of the UK, particularly examples of best practice, for comparative purposes.

Submissions will be published online alongside our final report, with any contact information (for example, email addresses) removed.

Consultation questions

The Committee invites responses to the following consultation questions.

Please note that not all questions will be relevant to all respondents and that submissions do not need to respond to every question. Respondents may wish to give evidence about only one local authority, several local authorities, or local government in England as a whole.

Please do let us know whether your evidence is specific to one particular authority or is a more general comment on local government in England.

Whilst we understand submissions may be grounded in personal experience, please note that the review is not an opportunity to have specific grievances considered.

- a. Are the existing structures, processes and practices in place working to ensure high standards of conduct by local councillors? If not, please say why.
- b. What, if any, are the most significant gaps in the current ethical standards regime for local government?

Codes of conduct

- c. Are local authority adopted codes of conduct for councillors clear and easily understood? Do the codes cover an appropriate range of behaviours? What examples of good practice, including induction processes, exist?
- d. A local authority has a statutory duty to ensure that its adopted code of conduct for councillors is consistent with the Seven Principles of Public Life and that it includes appropriate provision (as decided by the local authority) for registering and declaring councillors' interests. Are these requirements appropriate as they stand? If not, please say why.

Investigations and decisions on allegations

- e. Are allegations of councillor misconduct investigated and decided fairly and with due process?
 - i. What processes do local authorities have in place for investigating and deciding upon allegations? Do these processes meet requirements for due process? Should any additional safeguards be put in place to ensure due process?
 - ii. Is the current requirement that the views of an Independent Person must be sought and taken into account before deciding on an allegation sufficient to ensure the objectivity and fairness of the decision process? Should this requirement be strengthened? If so, how?
 - iii. Monitoring Officers are often involved in the process of investigating and deciding upon code breaches. Could Monitoring Officers be subject to conflicts of interest or undue pressure when doing so? How could Monitoring Officers be protected from this risk?

Sanctions

- f. Are existing sanctions for councillor misconduct sufficient?
 - i. What sanctions do local authorities use when councillors are found to have breached the code of conduct? Are these sanctions sufficient to deter breaches and, where relevant, to enforce compliance?

- ii. Should local authorities be given the ability to use additional sanctions? If so, what should these be?

Declaring interests and conflicts of interest

- g. Are existing arrangements to declare councillors' interests and manage conflicts of interest satisfactory? If not please say why.
 - i. A local councillor is under a legal duty to register any pecuniary interests (or those of their spouse or partner), and cannot participate in discussion or votes that engage a disclosable pecuniary interest, nor take any further steps in relation to that matter, although local authorities can grant dispensations under certain circumstances. Are these statutory duties appropriate as they stand?
 - ii. What arrangements do local authorities have in place to declare councillors' interests, and manage conflicts of interest that go beyond the statutory requirements? Are these satisfactory? If not, please say why.

Whistleblowing

- h. What arrangements are in place for whistleblowing, by the public, councillors, and officials? Are these satisfactory?

Improving standards

- i. What steps could *local authorities* take to improve local government ethical standards?
- j. What steps could *central government* take to improve local government ethical standards?

Intimidation of local councillors

- k. What is the nature, scale, and extent of intimidation towards local councillors?
 - i. What measures could be put in place to prevent and address this intimidation?

Who can respond?

Anyone with an interest may make a submission. The Committee welcomes submissions from members of the public.

However, the consultation is aimed particularly at the following stakeholders, both individually and corporately:

- Local authorities and standards committees;
- Local authority members (for example, Parish Councillors, District Councillors);
- Local authority officials (for example, Monitoring Officers);
- Think tanks with an interest or expertise in local government;
- Academics with interest or expertise in local government; and
- Representative bodies or groups related to local government.

How to make a submission

Submissions can be sent either in electronic format or in hard copy.

Submissions must:

- State clearly who the submission is from, i.e. whether from yourself or sent on behalf of an organisation;
- Include a brief introduction about yourself/your organisation and your reason for submitting evidence;
- Be in doc, docx, rtf, txt, ooxml or odt format, not PDF;
- Be concise – we recommend no more than 2,000 words in length; and
- Contain a contact email address if you are submitting by email.

Submissions should:

- Have numbered paragraphs; and
- Comprise a single document. If there are any annexes or appendices, these should be included in the same document.

It would be helpful if your submission included any factual information you have to offer from which the Committee might be able to draw conclusions, and any recommendations for action which you would like the Committee to consider.

The Committee may choose not to accept a submission as evidence, or not to publish a submission even if it is accepted as evidence. This may occur where a submission is very long or contains material which is inappropriate.

Submissions sent to the Committee after the deadline of 17:00 on Friday 18 May 2018 may not be considered.

Submissions can be sent:

1. Via email to: public@public-standards.gov.uk
2. Via post to:

GENERAL PRIVACY NOTICE

Your personal data – what is it?

“Personal data” is any information about a living individual which allows them to be identified from that data (for example a name, photographs, videos, email address, or address). Identification can be directly using the data itself or by combining it with other information which helps to identify a living individual (e.g. a list of staff may contain personnel ID numbers rather than names but if you use a separate list of the ID numbers which give the corresponding names to identify the staff in the first list then the first list will also be treated as personal data). The processing of personal data is governed by legislation relating to personal data which applies in the United Kingdom including the General Data Protection Regulation (the “GDPR”) and other legislation relating to personal data and rights such as the Human Rights Act.

Who are we?

What is the legal basis for processing your personal data?

The council is a public authority and has certain powers and obligations. Most of your personal data is processed for compliance with a legal obligation which includes the discharge of the council's statutory functions and powers. Sometimes when exercising these powers or duties it is necessary to process personal data of residents or people using the council's services. We will always take into account your interests and rights. This Privacy Notice sets out your rights and the council's obligations to you.

We may process personal data if it is necessary for the performance of a contract with you, or to take steps to enter into a contract. An example of this would be processing your data in connection with the use of sports facilities, or the acceptance of an allotment garden tenancy

Sometimes the use of your personal data requires your consent. We will first obtain your consent to that use.

Sharing your personal data

This section provides information about the third parties with whom the council may share your personal data. These third parties have an obligation to put in place appropriate security measures and will be responsible to you directly for the manner in which they process and protect your personal data. It is likely that we will need to share your data with some or all of the following (but only where necessary):

- Our agents, suppliers and contractors. For example, we may ask a commercial provider to publish or distribute newsletters on our behalf, or to maintain our database software;
- On occasion, other local authorities or not for profit bodies with which we are carrying out joint ventures e.g. in relation to facilities or events for the community.

How long do we keep your personal data?

We will keep some records permanently if we are legally required to do so. We may keep some other records for an extended period of time. For example, it is currently best practice to keep financial records for a minimum period of 8 years to support HMRC audits or provide tax information. We may have legal obligations to retain some data in connection with our statutory obligations as a public authority. The council is permitted to retain data in order to defend or pursue claims. In some cases the law imposes a time limit for such claims (for example 3 years for personal injury claims or 6 years for contract claims). We will retain some personal data for this purpose as long as we believe it is necessary to be able to defend or pursue a claim. In general, we will endeavour to keep data only for as long as we need it. This means that we will delete it when it is no longer needed.

For example, it is currently best practice to keep financial records for a minimum period of 8 years to support HMRC audits or provide tax information. We may have legal obligations to retain some data in connection with our statutory obligations as a public authority. The council is permitted to retain data in order to defend or pursue claims. In some cases the law imposes a time limit for such claims (for example 3 years for personal injury claims or 6 years for contract claims). We will retain some personal data for this purpose as long as we believe it is necessary to be able to defend or pursue a claim. In general, we will endeavour to keep data only for as long as we need it. This means that we will delete it when it is no longer needed.

<i>Change</i>	<i>Detail of Change</i>	<i>Impact of Change</i>
Record Keeping	Each Data Controller must maintain a record of processing activities under its responsibility. Data Processors must also keep a record of the processing activities they carry out on behalf of a Data Controller.	The level of detail is the same as contained in an ICO registration / notification at present and the log can be requested at any time by the ICO. See Error! Reference source not found. for a template of the log councils should keep.
Privacy Notices	Under the GDPR, privacy notices must contain more information, be more transparent, use clear and plain language, and must be easily accessible.	Privacy notices will need to be reviewed and updated to make them clearer, more transparent and easily accessible. See Error! Reference source not found.
Consent	The way consent is obtained will change under the GDPR as individuals have more rights to decide how their data is processed. Where processing personal data is based on consent, the council must be able to evidence the consent. Consent must be by an "opt in" method.	The types of processing activities which require the consent of an individual need to be identified and consents must be captured in a GDPR compliant manner.
Breaches	Data Controllers must report personal certain types of data breaches to the ICO without 'undue delay', and where possible no later than 72 hours after having become aware of the breach. An individual who has suffered damage as a result of a breach can claim compensation from the Data Controller or the Data Processor.	How councils handle data breaches should be reviewed. Training will be required to increase awareness of what constitutes a breach and how to escalate investigations into breaches.
Right of Access (Subject Access Requests)	The time limit to comply with a Subject Access Request ("SAR") has been reduced from 40 calendar days to one calendar month. The ability to charge £10 per SAR has been removed so all SARs are free of charge from 25 th May 2018.	The SAR process will need to be reviewed and updated accordingly.

Change	Detail of Change	Impact of Change
Data Privacy Impact Assessments (“DPIA”)	The GDPR makes it mandatory for DPIAs to be carried out in certain situations. DPIAs will need to contain a description of the processing and the purpose of the processing and need to identify any risks to the personal data and the rights and freedoms of individuals, and the measures and safeguards implemented to mitigate these risks.	DPIAs will need to be introduced where new technologies are used (e.g. CCTV or other monitoring) for high risk data processing activities (e.g. large scale processing of sensitive personal data) or when there are systematic and extensive activities which use automated processing to evaluate, analyse or predict behaviour (e.g. tracking behaviour on a website). See Error! Reference source not found.
Privacy by Design	When developing, designing or using services or applications which involve processing personal data, Data Controllers and Processors should adopt internal policies and measures to ensure personal data is protected.	If councils introduce new IT systems or launch new websites which collect personal data these new systems should have data protection controls built into their designs from the outset.
Right to Object to processing	Individuals must be advised of their right to opt out of processing activities, including marketing.	“Unsubscribe” methods will need to be reviewed. Any reasonable requests to object to processing should be stored and evidenced.
Right to Erasure	An individual has a right to request that their personal data is deleted. A Data Controller must delete personal data unless there is a legal obligation to retain the personal data.	Data deletion processes will need to be introduced so that data is not retained indefinitely. It’s likely a “data cleansing” exercise will need to be carried out prior to 25th May 2018 so that the council is not storing data it no longer requires or has a need to retain.
Profiling	An individual has the right not to be subject to a decision based solely on “automated processing”, including profiling. This is where a computer, or computer software rather than a human makes a decision about an individual.	Activities that rely or use automated decision making need to be identified. Processes need to be put in place to allow, where possible, individuals to object to automated decision making (and e.g. request that a human intervenes to make the decision).
Data Protection Officer	A Data Protection Officer (DPO) will need to be appointed by councils. The DPO should report to the highest level of management (i.e. full council) and must be informed about all data protection issues within the council.	Councils and parish meetings must appoint a DPO. Most clerks and RFOs cannot be designated as a council’s DPO because they are unlikely to satisfy all of the requirements of the job. For further information please see Error! Reference source not found.

<i>Change</i>	<i>Detail of Change</i>	<i>Impact of Change</i>
Right of Portability	The GDPR introduces a new right of data portability. This right allows for the data which an individual provided to the Data Controller to be provided to the individual in a structured format, to allow it to be provided to another Data Controller.	It will be important to understand where the data is being stored and in what format to make it easier to move personal data (and receive personal data from other data controllers).
