### **Material planning considerations**

The most common material considerations include the following, although the list is not exhaustive.

- Effect on listed building and conservation area
- Layout and density of buildings

### **Matters which we cannot normally take into consideration**

These include:

- Matters controlled under building regulations or other non-planning laws e.g. structural stability, etc.
- Private issues between neighbours e.g. land/boundary disputes, damage to property, private rights of way, covenants etc.
- Loss of value of property
- Problems associated with the construction period of any works e.g. hours of work, noise, dust, construction vehicles etc.

Hope this guide will help you give your views in an effective way
